

# Jana's RED ROOM

## August's Amazing Featured Artists!!!

Posted on **July 23, 2015** by **Cyn Lemon**

What a mixture of amazing artists featuring at Jana's RedRoom for the month of August!...Not to mention the super fun art from our 2015 Artists Camping Retreat!

We have invited the always lovely Lisa Herr and her mind blowing animal themed pieces that you won't be able to take your eyes off of. Lisa is excited to be unveiling her largest industrial chic art piece to date at Jana's RedRoom this month. Her highly unique approach blends multiple mediums together with a wide range of abstract elements to create something stunning, vibrant and fresh. Her goal was to have each piece reflect her deep passion for the animals she depicts, and also, to inspire people to take a responsible role in our co-existence with them....and boy she has done just that!

We are also very lucky to say that Jana's RedRoom is featuring the mind blowing Don Michael Jr. Using acrylic paint and paper maché, Don Michael, Jr. creates surreal canvasses featuring vivid color and 3-dimensional elements which incorporate realistic imagery juxtaposed against chaotic, abstract expressionistic masses of color. His works never disappoints. The way he mixes colors excites the eye in a way that will blow your socks off!

Another beautifully talented artist that we are blessed with this month is the innovative Annie Wildbear. She is featuring two imaginative pieces this month. "OWS – We The People" is a brilliant piece done in acrylic on metal panel. This piece captures a particular moment in our nation's history and is sure to touch the hearts of all. "Lucky" is a delightful piece done in acrylic on recycled wood panel. With four leaf clovers, horseshoes, a pot of gold and your very own good luck charm it is the art that you expect to find at the end of every rainbow.

Last but certainly not least is the always extraordinary Mannie Rubio. He will be showcasing something a little different from his beautifully grotesque aberrations but equally as stunning. All done in oil, his sumptuous and saucy "Flamenco Dancer" is seductive and tantalizing to boot.

Don't miss all these fascinating works of art and hundreds more at Jana's RedRoom this Preview Thursday and First Friday, August 6th and 7th. It's a celebration of local artists here at the RedRoom and we want all of you to be a part of it. Come and get your color on with us!
